Introduction

YZ555

SUNSHINE – Interpreter of happiness and positive energy

The smiling star of the chair world, spreading joy and uplifting spirits.

Distinctive appearance with strong uniqueness.

Exceptional comfort experience.

Industry-first adjustable backrest, tilting synchronously 10-15 degrees.

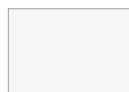

The increase of new materials makes it more vibrant.

Three-color matching, clear layering, and strong three-dimensional sense.

Easy to move with one hand, more convenient.

Mainly used in training rooms, wisdom classrooms, libraries, canteens, desks, conference rooms, dormitories, and other venues.

Introduction

YZ666

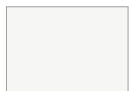

ALIEN - Creatures from outer space, mysterious and agile

We used for reference to Hermanmiler from the United States, combined with the height and weight of the human body, conducted repeated experiments, and adjusted it to meet the ergonomics of the human body. Beautiful lines and unique functionality.

Utilizing new materials for the backrest, incorporating a rotating mechanism for synchronous movement. It combines both solidity and aesthetics.

Mainly used in training rooms, wisdom classrooms, libraries, restaurants and canteens, cafes, conference rooms, leisure areas, dormitories and other venues.

Introduction

HD66

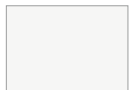

XINGMAN – Understated yet dynamic! Elegant color schemes inspired by the natural world breathe new vitality into its design.

The Xingman draws inspiration from the Rainbow Bridge—a symbol of beauty and auspiciousness—roaming through time and space, embodying the aspiration to immerse oneself in an idealized world of wonder. Simultaneously, it empowers with a sense of strength, evoking romance, hope, and boundless imagination, captivating users with its enchanting charm and elevating joy. Merging ergonomic principles, the Xingman harmonizes all the aspirational qualities of the Rainbow Bridge through graceful curves and refined materials.

Aligned with eco-conscious demands and compliant with BIFMA quality standards, it is crafted from premium imported fiberglass-reinforced PP and acrylic. Beyond being 100% recyclable, its subtle matte texture delivers a delicate, velvety touch, exuding sophisticated taste while ensuring exceptional durability. Practicality is enhanced through user-centric design, with efficient color pairings creating striking dual-tone visual impact—showcasing the untapped potential of plastic in modern design.

As a groundbreaking innovation in next-generation seating, the Xingman features a dual-layer configuration. Its stackable design adapts seamlessly to diverse environments, from outdoor spaces, school dormitories, and restaurants to libraries and homes. This versatility amplifies its practicality, allowing its unique allure to shine in any setting.

XINGYUN - The perfect encounter of time and space with the starry sky

The designer infused the mysterious and dreamy temperament of the nebula into the design of the chair, creating an artistic chair named "Xingyun". Its lines are smooth and elegant, showcasing the artistic beauty of Xingyun.

Following the concept of environmental protection and adhering to the quality standards of the American Bifma, it uses ABS material snap-on design, applying ergonomics to the extreme. It can be quickly installed in 5 seconds without any tools, saving time and effort.

It can widely used in apartments, dormitories, libraries, cafes, restaurants, hotels, negotiation and other public areas.

XINGBEI - Inspired by the call of the starry sea.

To solve the transportation cost issue, countless experiments were conducted, with repeated assembly and disassembly tests, finally achieving easy assembly and disassembly.

Enhanced seating comfort and relieving tension.

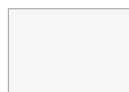

The sense of solidity is more prominent, and users feel more secure.

Easy to carry by hand and can be moved with one hand, with an outward flipping design for the product seat plate.

Efficiently reduces transportation and manufacturing costs, highlighting its high cost performance ratio.

It can mainly be used in apartments, libraries, classrooms, outdoor, dormitories, restaurants, negotiations and other venues.

DIAMOND

Diamond chair parts have independent detachable function, and adopt independent detachable backrest and reverse buckle structure, which greatly increases the durability and firmness of its chair back. At the same time, different colors can be used according to the needs of the use scenario. The waist and coverage are obvious. The back bracket of the seat plate ingeniously uses its design characteristics to realize the folding hook and buckle functions.

Introduction

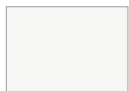

YZ521

PAGODA

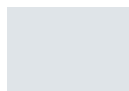

The seat back part of the tower is designed by using the elements of the Eiffel Tower, combining the waist position and the cervical position to skillfully design the 3D elevation seat back. In order to better support the waist and protect the spine, the waist and coverage are obvious. The chair body and decorative shell can be better integrated into the overall environment through color differentiation and matching. To enhance the overall sense of hierarchy and three-dimensional.

The seat surface of the chair is a 3D three-dimensional seat surface designed through ergonomic analysis and segmentation to improve its comfort and breathability. The reversible design can facilitate the user to carry by hand.

PYRAMID

The design of the pyramid chair comes from the pyramid, representing our beautiful sustenance and hope for the future. It is also a beautiful gift from nature to our soul. These elements are reinforced in the design and applied to our products to create a product that can meet the needs of different customers, thereby creating different use spaces. Includes public space, hospitality, meeting rooms, and educational seating.

Introduction

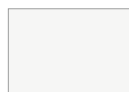

YZ218

SPACE CHAIR

The back design of the space chair is based on space, the waist is based on the earth, and is integrated with the space track and seat shape. The seat surface echoes its back design. The design of running around space ingeniously combines its texture to achieve comfortable and breathable seat.

The waist shape design is based on the earth as the center and combined with the space operation track. The adaptive waist adjustment is realized by using its material elastic characteristics. Improve the effect of the chair on the waist and realize its waist protection function.

Introduction

YZ686

HUA CHAIR

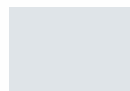

The **"Hua" Chair** draws design inspiration from the concept of "green mountains and clear waters as invaluable assets." Its chair back features mountain peaks beneath cloud layers, with curvature specifically designed according to lumbar spine curves to enhance waist support and reduce sitting fatigue. The seating comfort design incorporates professional body pressure testing and analysis of individual differences, optimizing the surface curves and curvature of the seat. Aligned with the natural curves of hips, thighs, and knees, it perfectly contours to body shapes while meeting ergonomic standards. Lightweight yet structurally sound, it combines diverse color schemes with functional design. The creation of "Hua" Chair represents the collaborative effort and challenges overcome by designers and engineers.

With static sitting recognized as the optimal posture, **"Hua"** features a vibrant color shell and highly enveloping seat that accommodates various sitting positions. As sitting occupies half of human life, this chair adapts to diverse spatial requirements - emerging as a versatile seating solution for offices, hotels, public spaces, reception areas, conference rooms, and educational environments. Designed for daily life integration, it responds to varied user needs across different scenarios.

WING -The wings of angel

With the rapid development of social economy, people's consumption ability also increases accordingly. The products' diversifications are getting the market share, and at the same time they could meet the need of consumers themselves. It is how "Wing" comes, a product that satisfies different occasions of use and can be integrated into different living Spaces. Italian minimalist design concept. Simple and powerful line structure clean and tidy. The exquisite inherent linear aesthetic feeling and workmanship make this product not only a product but more a fashionable and attractive artwork. The structure looks like the angel's wing ready to fly which means that we are flying toward our dreams. When you sit on it, the backrest tightly close to your spine, giving you the very supportive dependence and cool feeling! The detailed design of the seat not only makes it look light and beautiful, but it also adapts to a variety of different styles of various Spaces via different colors, materials and different choice of veneer.

Introduction

YZ588

With the rapid socio-economic development, people's consumptions and needs have changed accordingly. Historically there has always been excessive wastage with unnecessary packaging material and design at specific use products. This has resulted in over consumption of global resources to such an extent that the ecological environment of the entire Planet has been seriously damaged. In showing our commitment to veer away from these trends, we have come up with revolutionary design idea of a green product which contains 95% recyclable materials.

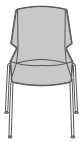

After in-depth exploration of the needs of the market, coupled with more than 10 years of experience in furniture manufacturing, we have remodelled the traditional single use product in order to fulfil different requirements, allowing for seamless integration into different living spaces. Hence the birth of the PRIM series.

The PRIM is not only a green product. It is a representation of minimalist, multifunctional design, a product of exquisite workmanship. All this in conjunction with its creative, artistic form make the PRIM a truly unique concept—more than just a chair—it is a pioneer in modern seating.
